

Angels and Monsters Daniela Stojsic

Sculptures made out of different materials and with different techniques, video performances

Workshop: 8. Aug. – 12. Oct. 2006

Opening Show: 13. Oct. 2006

Exhibition: 13. – 28. Oct. 2006

We design our own companions – with fantasy material – and explore where they live, how they live, what they feed of, what they want, what they wish for.

Our goal is to identify our personal Angels and Monsters and to give them a shape. By means of various artistic techniques, this reality can be made visible.

This workshop is suitable for children as well as for adults.
You are cordially welcome!
