Wanted... searched for... robbers, who haunt trouble in our life. We expose them and give them a form, a shape, a face, a name. And likewise their positive opponents, which we can switch them off with, with wire, wire netting, papier-mâché, templates / stencils, PU-foam, structural paste, modelling mass / paste, fabric etc. we will create structures, busts, objects and reliefs with interactive elements. You are cordially invited, to actively take part in this creative journey ...
